

SC G&S Manufacturing SRL

The Company:

Founded in 2025, but with extensive prior experience, G&S Manufacturing SRL specializes in high-precision machining, offering complete services in milling, turning, electrical discharge machining, grinding, as well as the design of tools and technical components. With a team of experienced specialists and modern equipment, we focus on delivering customized solutions that combine quality, precision, and efficiency. We cater to manufacturers in various industries, as well as partners who need unique parts or small/large series produced to high standards and with fast turnaround times. Through reliability, promptness, and attention to detail, we build long-term trust-based relationships with each client.

- Newly established in the town of Cisnădie, Sibiu County
- Team with over 15 years of experience in fields such as design and mechanical processing
- Expertise: milling, turning, EDM, grinding, design and manufacturing of devices.

Products & Services:

- CNC Milling
- CNC Turning
- Electrical Discharge Machining (EDM)
- Grinding
- Design and manufacturing of tools (injection and stamping molds)
- Development and implementation of integrated equipment

Competitive Advantages:

- Strong technical expertise
- Flexibility and adaptation to customer requirements
- Modern technology and state-of-the-art CNC equipment
- Rigorous quality control
- On-time delivery
- Long-term partnerships based on transparency and trust

Projects and Collaborations:

Over the years, we have established collaborations with companies in various fields, such as:

- Kuka Automatizare Romania SRL

- 3D-Est Romania
- Bosch Automotive SRL
- Preh Romania
- NBHX Rolem SRL
- TechnoCut Steel SRL
- Hella Romania
- Polycontact SRL Sibiu

(The list represents ongoing collaborations and active or past partnerships)

Team:

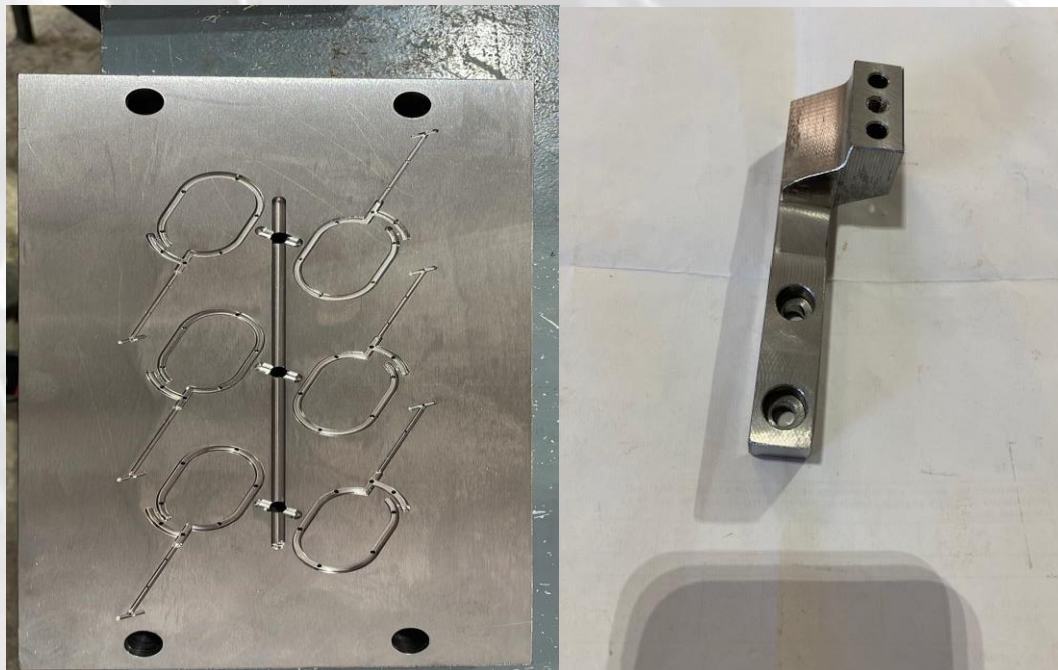

With a staff of 5 professionals (and growing) in the field of machining, we guarantee that we will meet all your requirements

- Professionals with extensive experience in mechanical processing and 3D design
- Dedication and professionalism in every project
