

VER METLOC

Reliable welded structures
for heavy-duty machinery

Built on trust. Made with precision

WHO WE ARE

We are a growing metal fabrication company specializing in structural weldments for machines that operate in demanding outdoor environments.

Family-driven efficiency, European industrial standards.

- Founded in 2021
- Located in the center of Romania
- Short decision chain, high adaptability

OUR CORE CAPABILITIES

We keep the main operations fully in-house.
Surface-treatments are done with trusted certified partners.
We manufacture based on customer drawings and support with design if needed.

CUTTING

Laser and saw cutting up to
3000 × 1500 mm, up to 20 mm
thickness

BENDING

CNC bending up to 3100
mm / 200 t, high
repeatability

WELDING

MIG/MAG & TIG certified
welding for steel,
stainless, aluminium

ASSEMBLY

Component assembly, QC
and secure packaging, on-
site support

WHY IT FITS YOUR APPLICATIONS

90% of our production goes into drilling machinery used under:

If our welded structures survive drilling, they will thrive in your equipment.

**DUST/MOISTURE &
TEMPERATURE
VARIATIONS**

VIBRATION

**HEAVY
OPERATIONAL
STRESS**

LOAD-BEARING SUBASSEMBLIES

WELDED FRAMES AND MACHINE CHASSIS

HOUSINGS & PROTECTIVE STRUCTURES

MODULAR STEEL PARTS FOR INDUSTRIAL
EQUIPMENT

ARCHITECTURAL & URBAN METALWORK

PRODUCT TYPES

High-quality structures that look sharp, protect critical systems, and keep equipment running.

FROM RAW STEEL TO FIELD-READY

Workflow Example 1:

CUTTING

BENDING

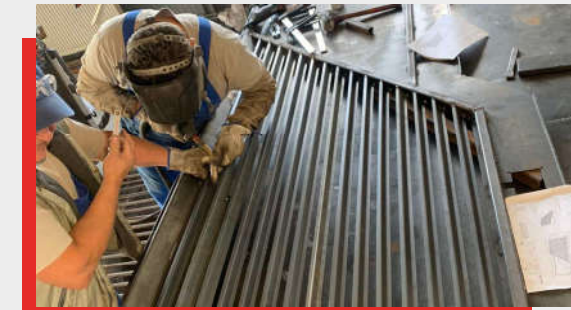

FIT-UP & FIXTURE WELDING

FIELD-READY

SURFACE PROTECTION

FINAL WELDING

FROM RAW STEEL TO FIELD-READY

Workflow Example 2:

CUTTING

BENDING

FIT-UP

FIELD-READY

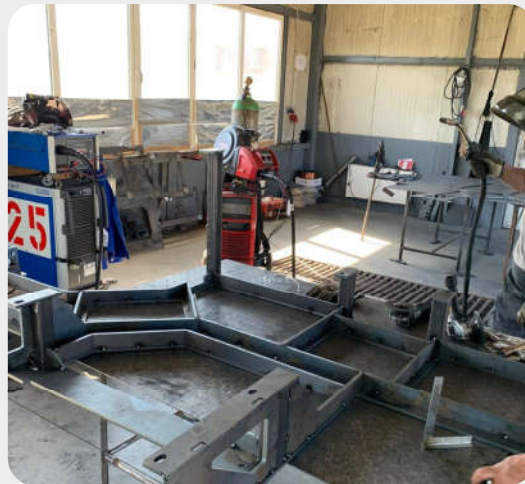

SURFACE PROTECTION

FINAL WELDING

QUALITY & LONG-TERM PERFORMANCE

- Skilled, certified welders
- NDT Level 2 inspections: UT, VT, PT, MT
- Welding fixtures and dimensional checks for accuracy
- Corrosion protection tailored to field condition

Built to withstand vibration, weather and years of continuous use.

Weekly deliveries
across the EU

Our components were
integrated into
machinery showcased at
Bauma 2025 in Munich.

EUROPEAN VALIDATION

Customers in Germany,
Austria, Switzerland,
Liechtenstein, Netherlands,
Romania

SMOOTH COOPERATION. REAL PARTNERSHIP.

How we work with you

- Technical alignment from the start
- Pilot part and quick validation
- Smooth scaling into series production
- Reliable logistics and clear communication

Why clients stay with us

- Fast responses, usually within hours
- Flexibility when urgency strikes
- Transparent process and delivery precision
- Long-term partnership mindset

LET'S BUILD A RELIABLE PARTNERSHIP

We are ready to contribute to your supply network with reliability, precision, and commitment.
