ABOUT VER METLOC

VISION / MISSION

OUR PRODUCTS AND EXPERTISE

WHY PARTNERS CHOOSE US

CONTACT

Our components have been integrated into heavy-duty machinery showcased at **Bauma 2025**, the world's leading trade fair for construction and industrial equipment in Munich.

COMPANY PROFILE PRESENTATION

# About Ver Metloc

---

Founded out of a passion for industrial craftsmanship, VER METLOC is a family-owned metalworking company from Romania.

We deliver precision-made welded structures and components for industrial, agricultural, and construction machinery, with full team commitment and a strong presence across Europe, including Germany, Switzerland, the Netherlands, and beyond.

[www.vermetloc.ro](http://www.vermetloc.ro)

# Mission

---

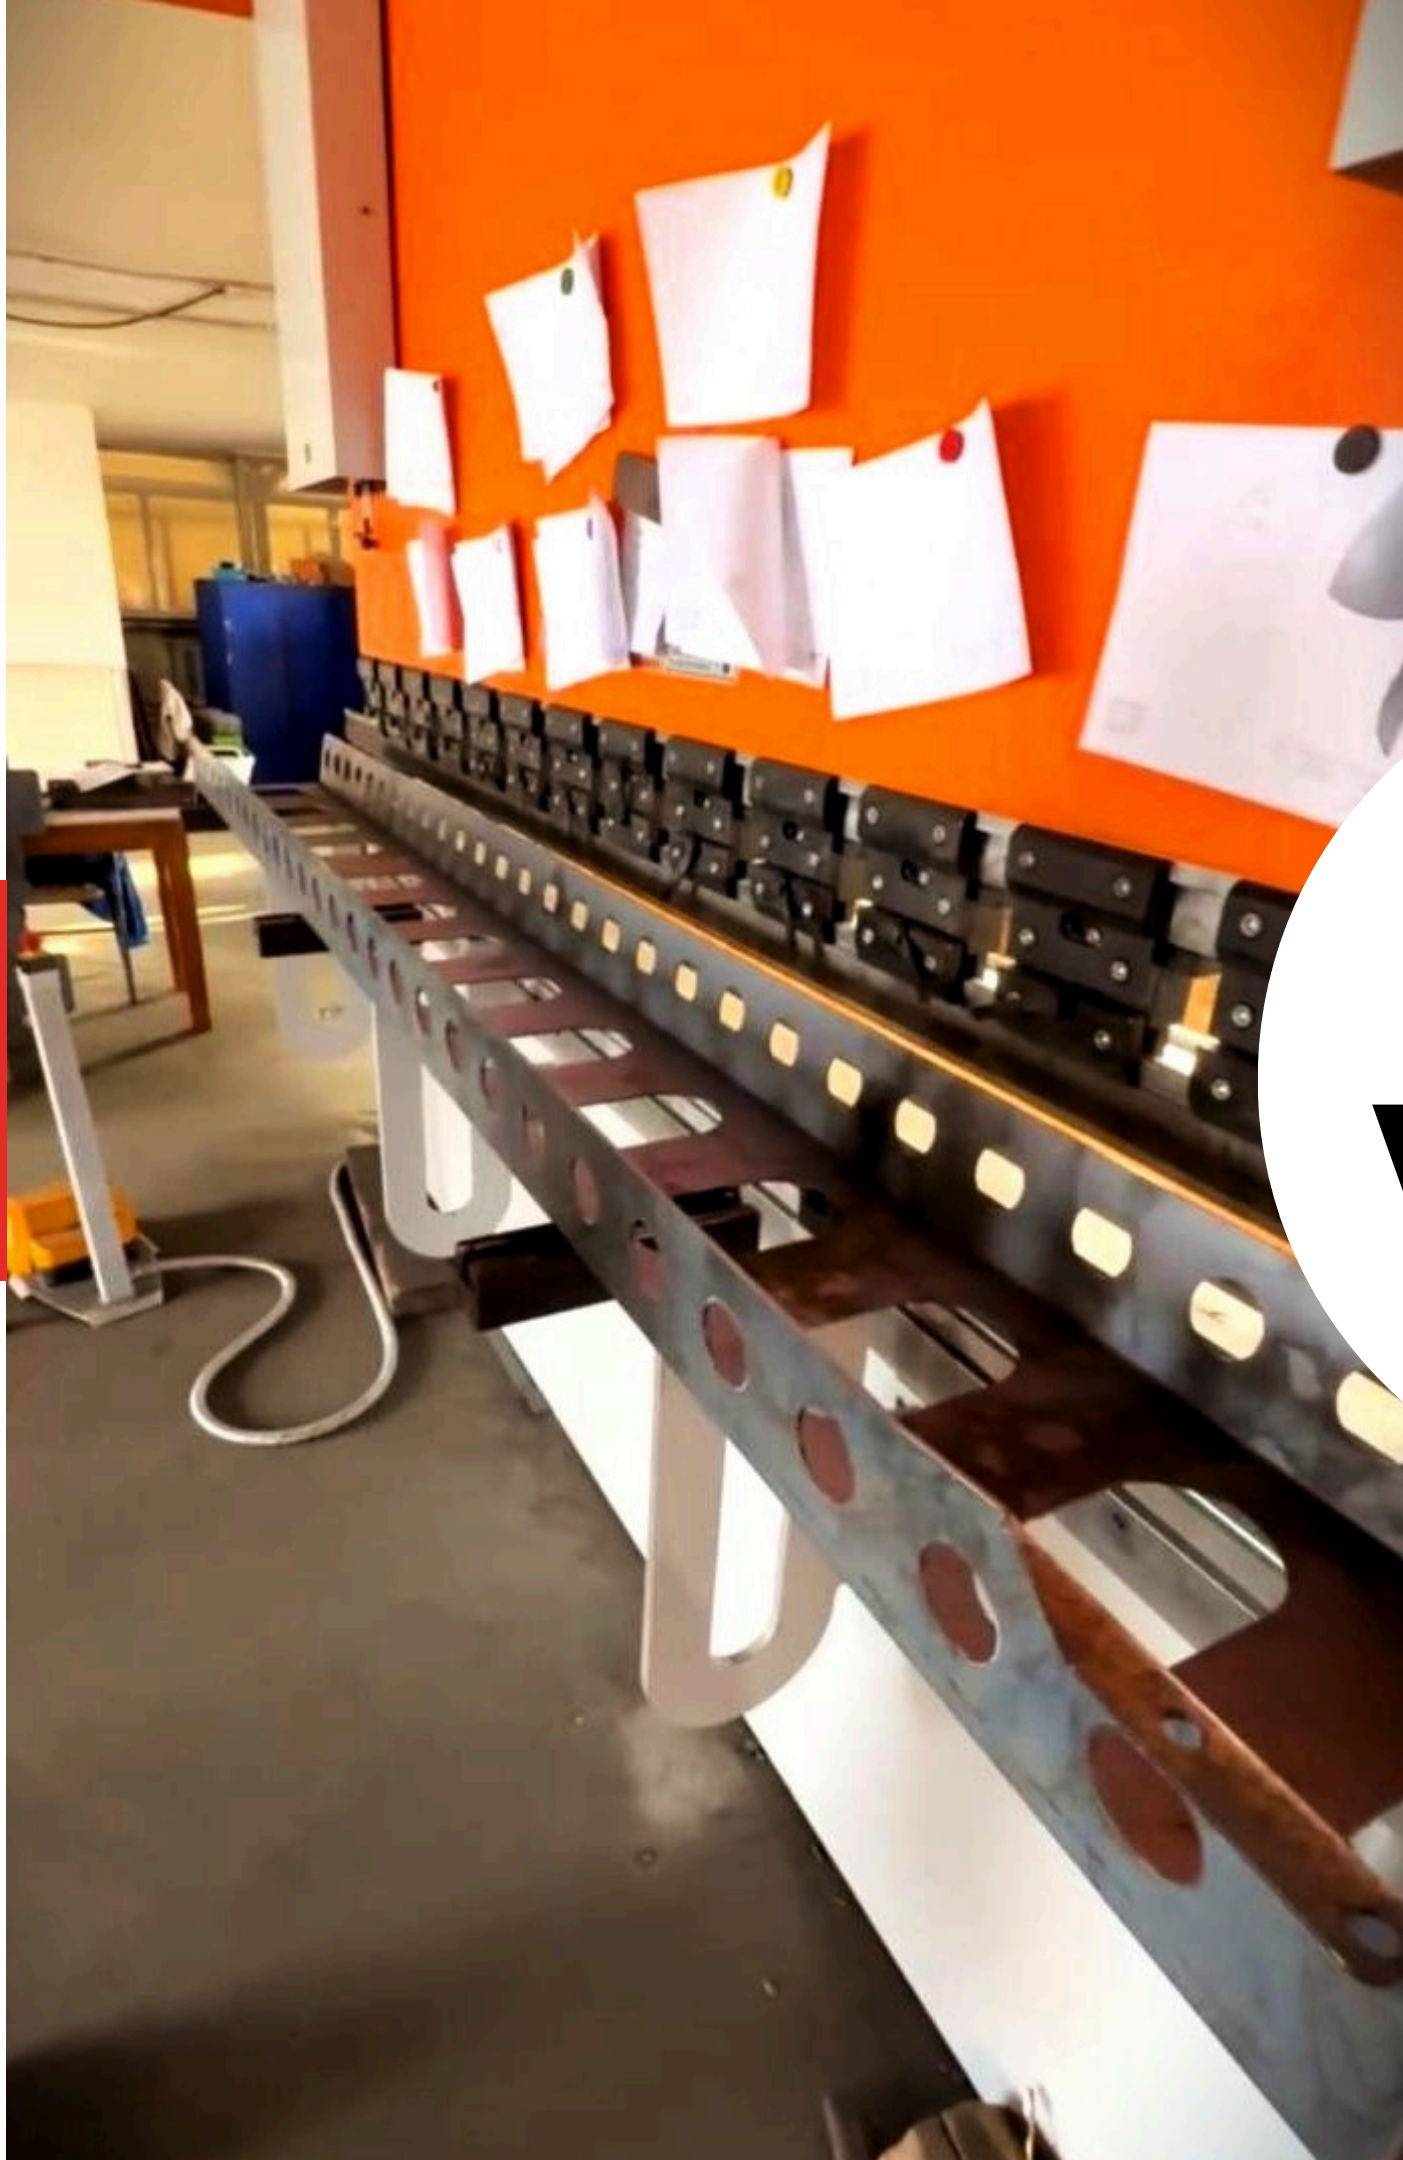

To manufacture reliable, precise, and custom metal parts by combining modern technology with the attention and care of a family-driven team.

# Vision

---

To be a trusted long-term partner for high-quality metal components across Europe, known for our adaptability, craftsmanship, and team dedication.

## Our Values

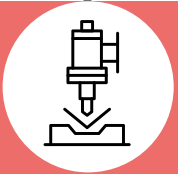

# Our Services

## CUTTING

Precise laser and saw cutting of sheets, profiles, and tubes - clean edges, minimal waste, consistent accuracy

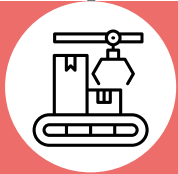

## BENDING

Accurate, repeatable bending of metal components, powered by modern CNC press brakes

## WELDING

Certified MIG/MAG and TIG welding: clean seams, solid joints, and proven reliability

## ASSEMBLY & PACKAGING

Full assembly and packaging solutions: quality-checked, safely packed, and ready for installation

# Industries served

---

## **DRILLING & CONSTRUCTION**

---

Heavy-duty components engineered for strength, accuracy, and long-term performance on site

## **AGRICULTURE & AUTOMOTIVE**

---

Assemblies built to withstand continuous use and demanding environments

## **TRANSPORT & INFRASTRUCTURE**

---

Precision-built metal structures for transport and urban projects across Europe

**Carbon steel**

**Stainless  
steel**

**Metals  
we  
master**

***Aluminium***

***Corten***

Max sizes: Cutting: up to 3000 x 1500 mm  
Bending: up to 3100 mm, 200t

COMPANY PROFILE PRESENTATION

# Our products

---

## Structural & Heavy-Duty Components

---

Load-bearing structures and welded subassemblies  
for heavy drilling machinery

Welded frames, machine chassis, and housings for  
industrial equipment

Pillars, beams, and modular frames

Supporting elements for transport and logistics

[www.vermetloc.ro](http://www.vermetloc.ro)

COMPANY PROFILE PRESENTATION

# Our products

---

## Industrial & Workshop Equipment

---

Workbenches and custom components for  
production lines

Metal shelves and storage systems for industrial use

Scaffolding, box pallets, and transport racks

Containers for industrial use and material handling

[www.vermetloc.ro](http://www.vermetloc.ro)

COMPANY PROFILE PRESENTATION

# Our products

---

## Urban & Custom Metal Design

---

Street furniture (bike racks,  
shelters, benches)

Custom parts for the automotive  
and transport industries

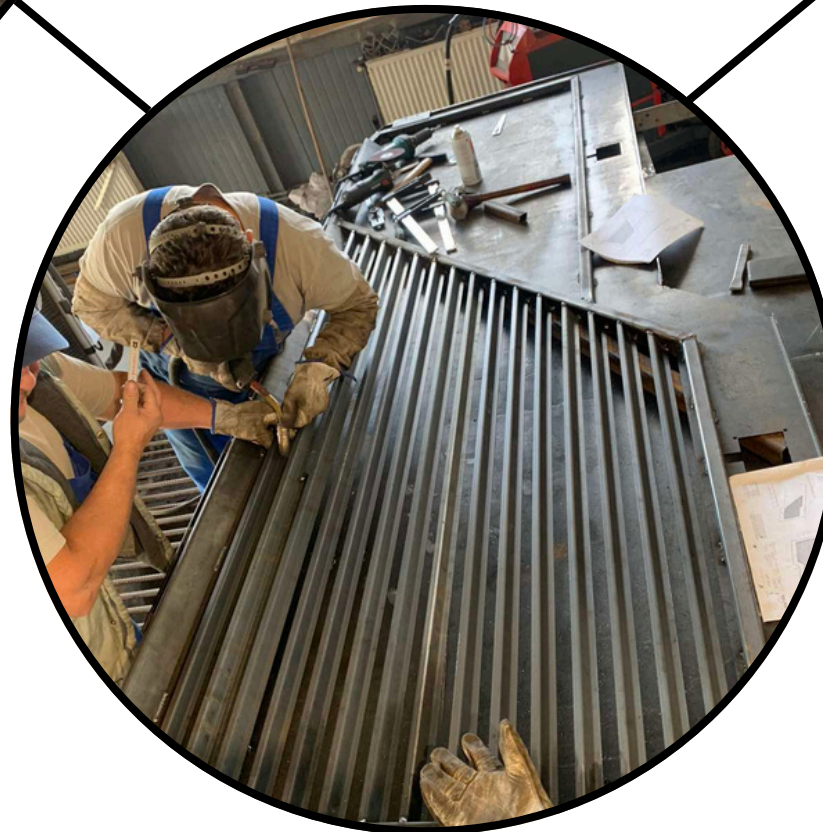

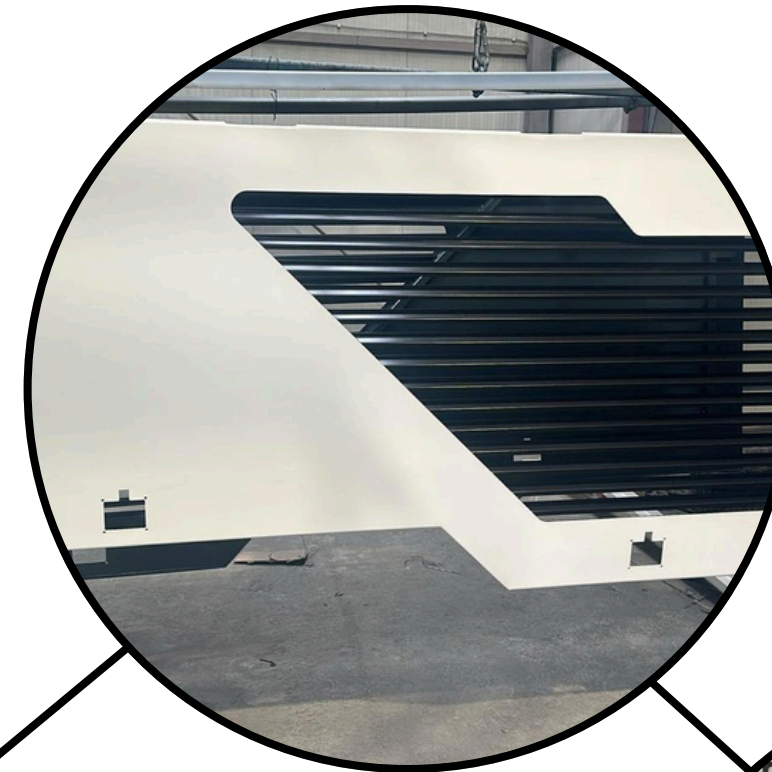

Tailor-made welded assemblies  
for special projects

COMPANY PROFILE PRESENTATION

# Our clients value

1

## **OUR RESPONSIVENESS**

We reply to requests quickly, usually within just a few hours, ensuring clear communication from the very beginning.

2

## **OUR PRECISION**

We manufacture every component according to drawings and specifications, maintaining tight tolerances and consistent quality.

3

## **OUR RELIABILITY**

We deliver on time, with weekly shipments across the DACH region and short, predictable lead times.

# Why partners choose us

- 

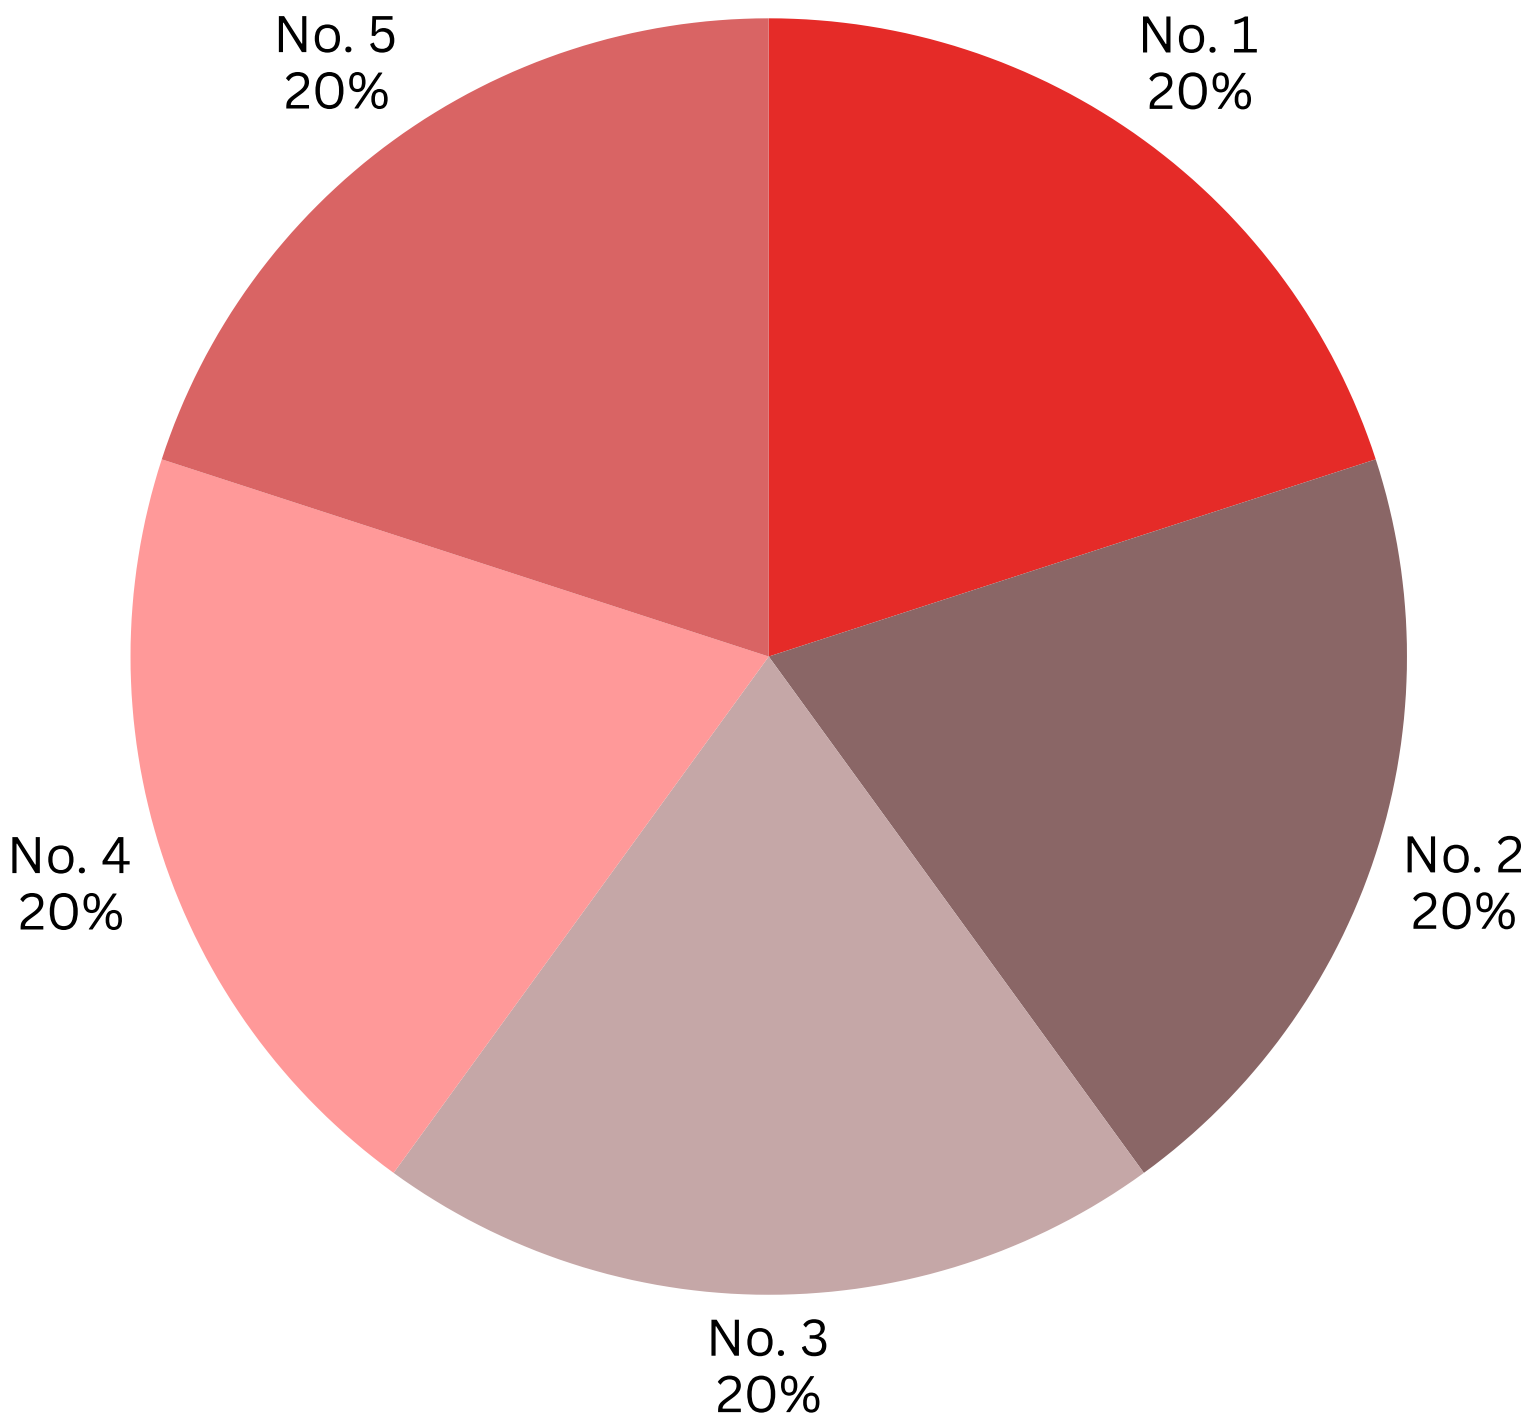

**1. Strong, Long-Term Partnerships**  
We don't aim for one-time projects, we build lasting collaborations based on trust, consistency, and mutual respect.
- 

**2. Clear and Honest Communication**  
We keep communication open, fast, and transparent, because reliability starts with clarity.
- 

**3. A Team That Truly Cares**  
Our people put heart into every build. We take pride in our work and treat every project as if it were our own
- 

**4. Flexibility That Works for You**  
We adapt production schedules and delivery timelines to your needs, ensuring smooth cooperation even under tight deadlines.
- 

**5. Precision Tailored to Every Project**  
Each part is manufactured with accuracy and care, fully adapted to your technical and functional requirements.
