Delivery

Industrialization & Technology

Our company is committed to innovation, utilizing last technologies for production processes.

We have a strong technical office where 2 Project Managers and 12 skilled technicians work closely with clients. We offer customized solutions ranging from design activities to the finished product, meeting the needs of every customer.

Supply Chain Management

We produce fully assembled units through an integrated supply chain for technologies not available in our workshop.

- Milling and turning
- Heat treatments
- Surface treatment
- Catalog items
- Wiring

Resources

Sheet metal and tube:

2 Laser Trumpf (5040 e 5030)
with automatic warehouse STOPA
(350 position)

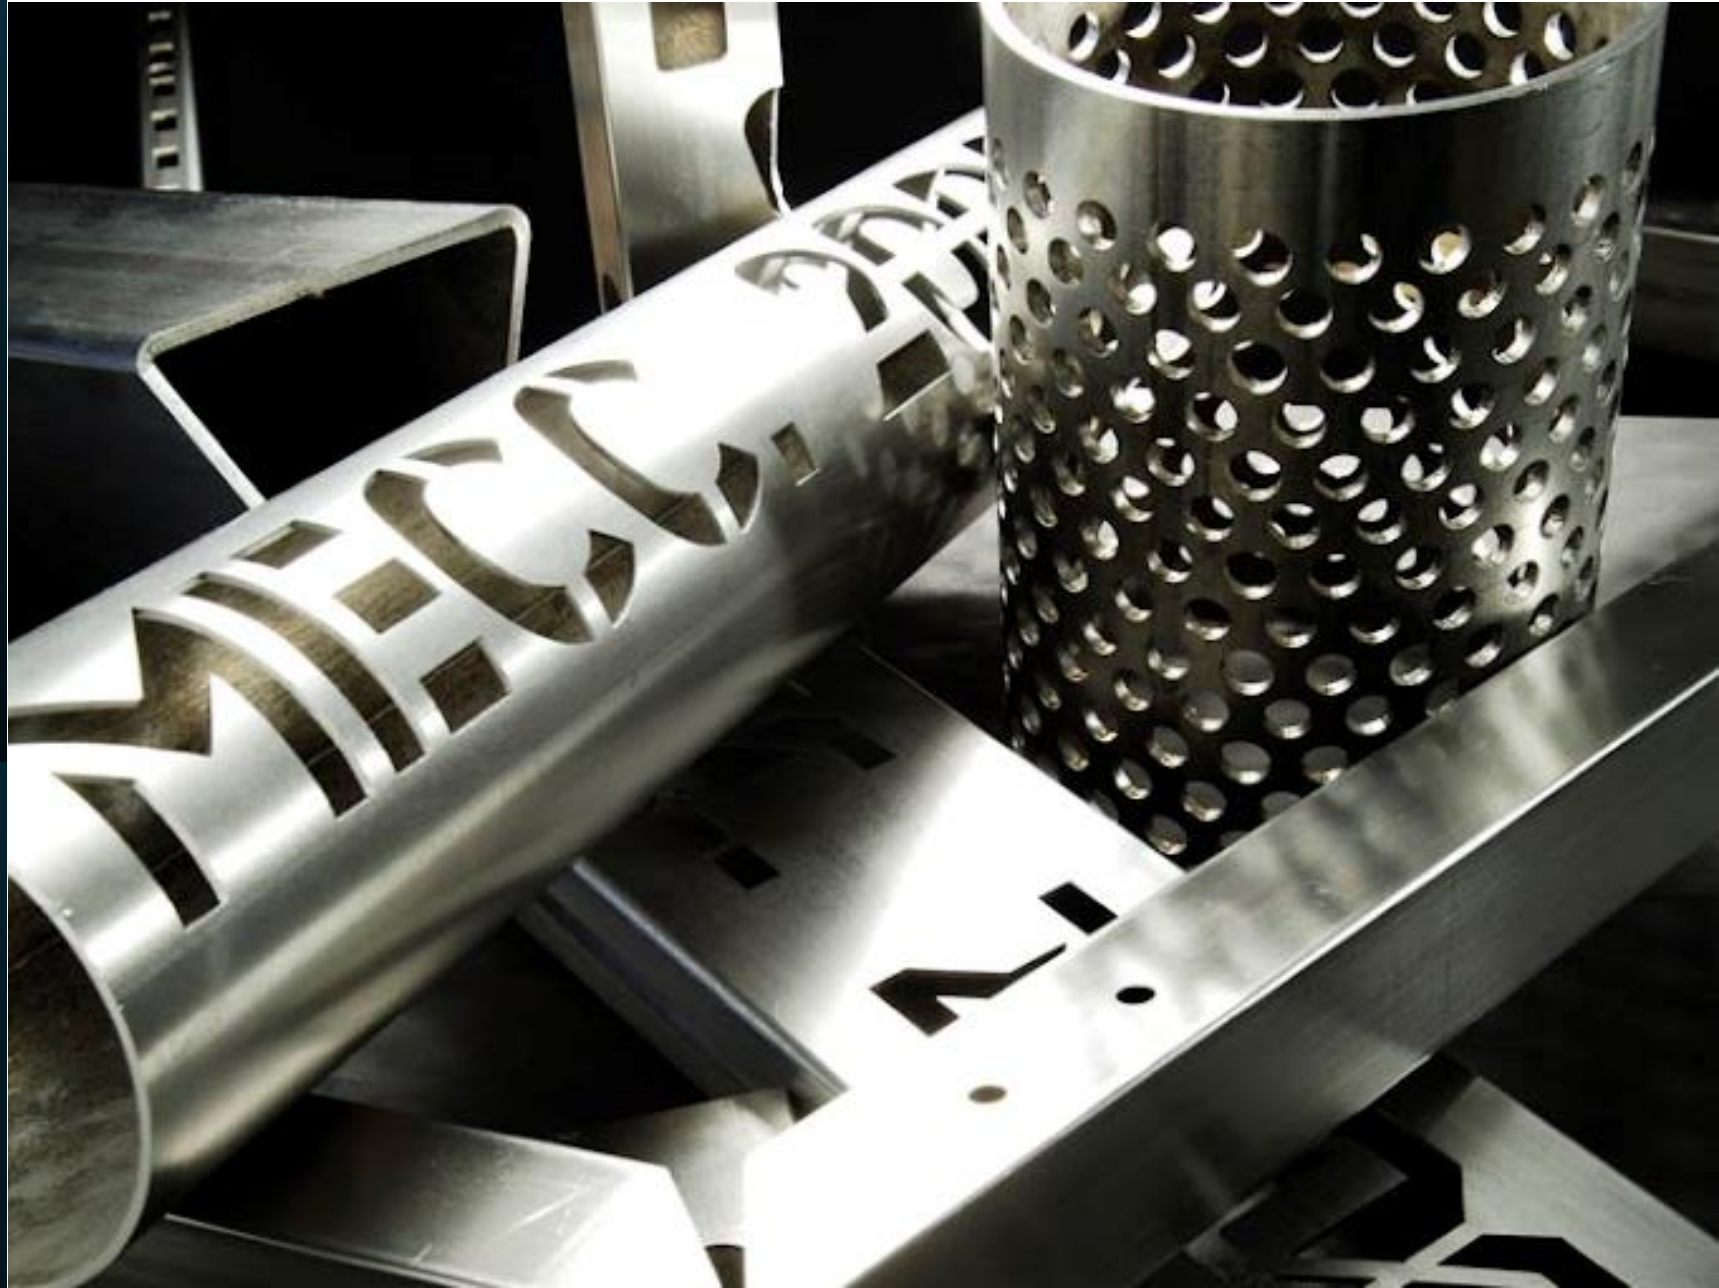

1 Laser tube BLM LT8.2

5 Bending machine Trumpf

1 Bending machine Colgar

1 Punching machine Trumpf

 **MECC2000**

 **MECC2000**

Resources

Welding:

25 welding machines MIG/MAG

6 welding machines TIG

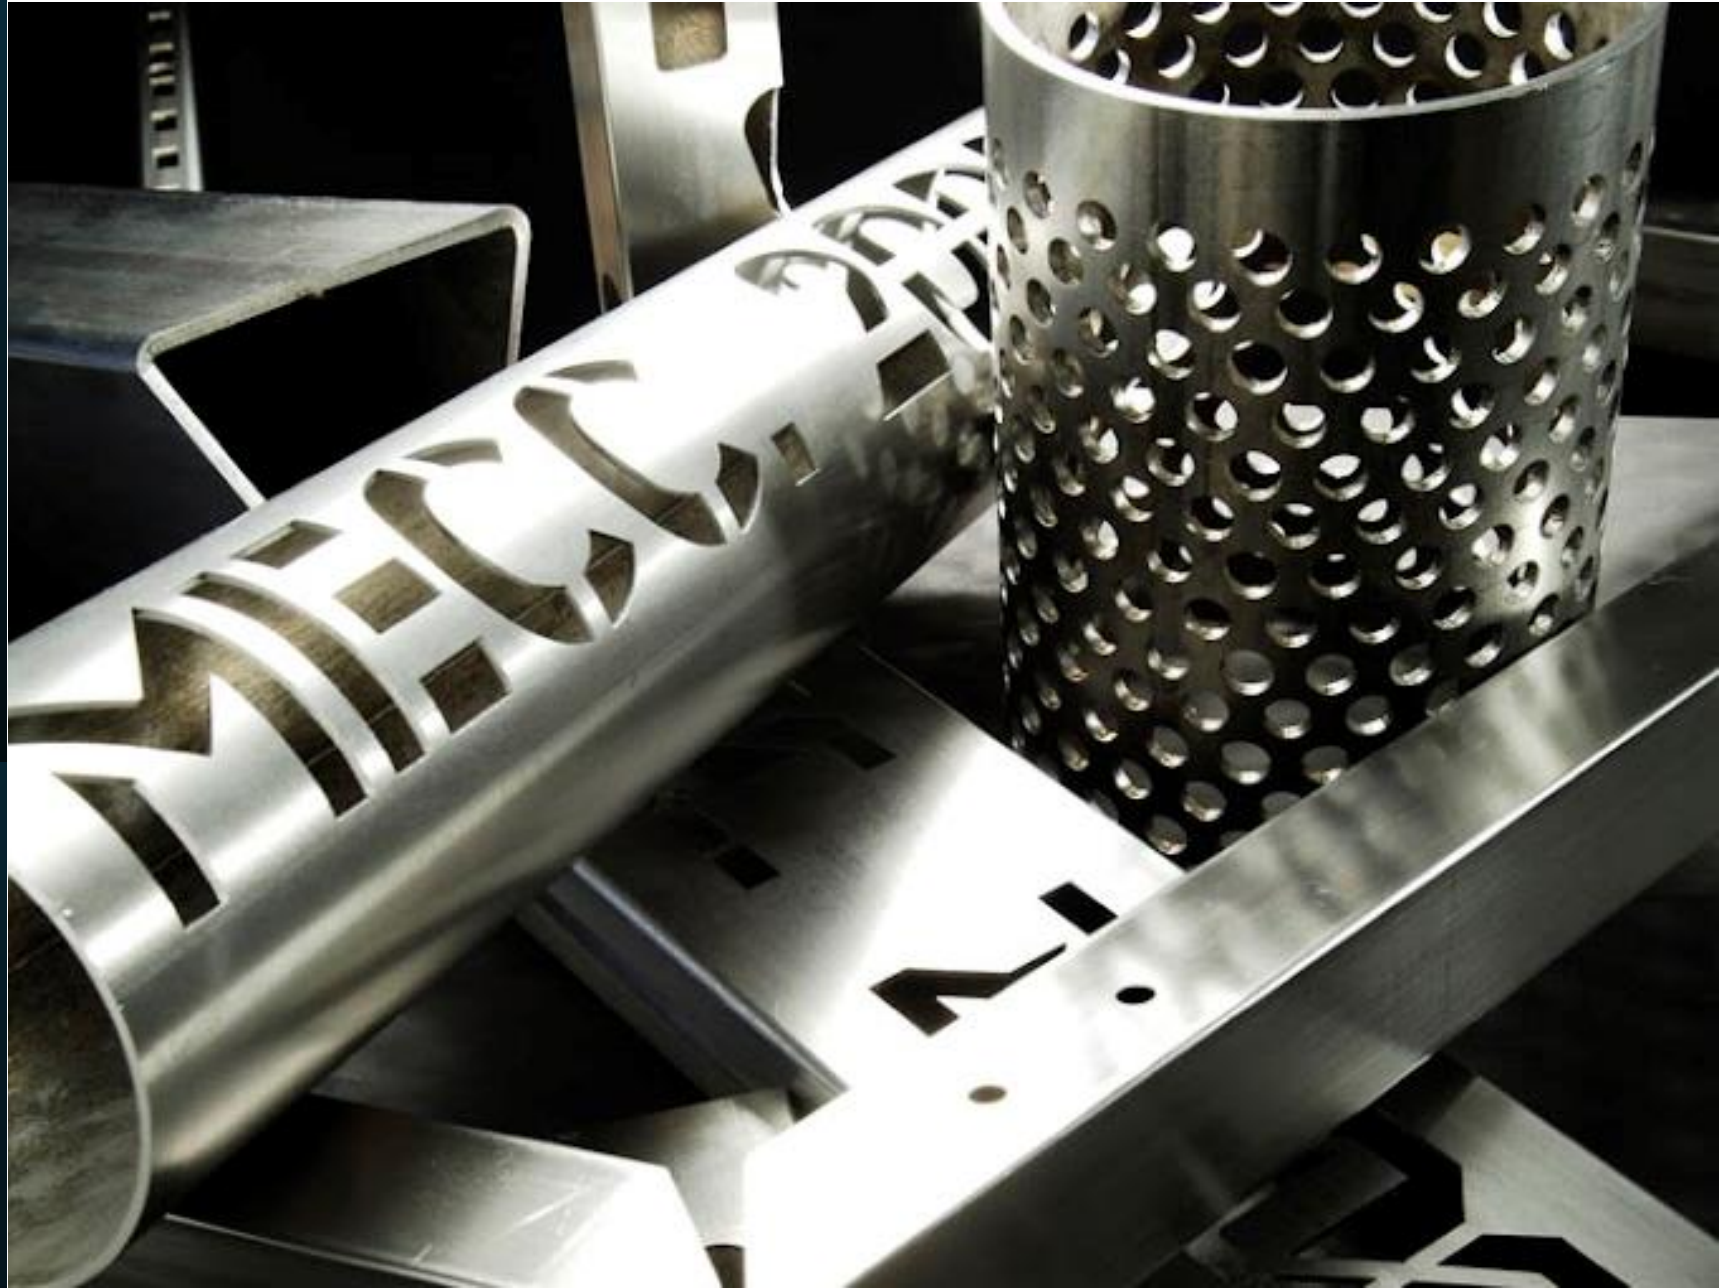

1 Welding cobot

1 Welding robot with 3 welding areas
6000 mm

8 welding machines TIG (inox e aluminum
in dedicated area)

Certification: EN-1090-1, EN-3834-2
