

THERMOFORMING

Cross-industry precision with maximum flexibility

ENGINEERING

PROTOTYPING

METALWORKING

TOOLMAKING

INJECTION MOLDING

THERMOFORMING

ASSEMBLY

With the WELP Group's expertise in contract manufacturing, we offer you individually tailored solutions for your projects. Whether in medical technology, the automotive industry or electrical engineering – the WELP Group manufactures components that meet the highest requirements.

OUR CAPABILITIES

- **Material variety:**
ABS, ABS/PMMA, HDPE, PP, PS, PETG, PC, PVC
- **Panel size**
up to 2.350 x 1.150 mm
- **Material thickness**
from 1,5 to 10 mm
- **In-house tool and mould making**
- **Manufacture and assembly**
of components and assemblies
- **Milling technology**
mit 2D-/3D-Bearbeitungsmöglichkeiten

YOUR BENEFITS WITH WELP

- ✓ Innovative thermoforming technology: Optimised processes for maximum precision
- ✓ Maximum material diversity: different and individual materials
- ✓ Complete solutions from a single source: concept, development and installation
- ✓ Optimised processes for reduced time-to-market and faster series production
- ✓ ISO-certified quality and process reliability (ISO 9001 / IATF 16949 / ISO 14001 / ISO 50001)
