Quality Manager: Siwar Taamallah

siwartaamallah@abinject.com

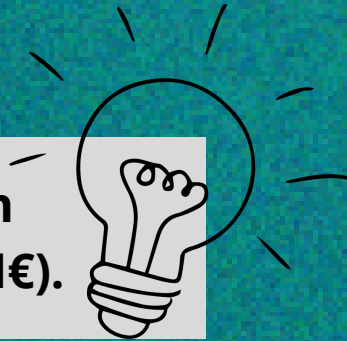

CEO & Key account: AmirRhouma

amir.rhouma@abinject.com

Our history

- ABInject Creation (Investment: 2.2 M€).

- Factory construction with a surface area of 1300m² on a total area of 4000 m².

- Startup production
- ISO 9001 certification
- Telecom parts: french customer
- Cosmetic parts: Italian customer
- Automotive parts: German customer

2024

Purchasing new injection molding machines: 50T, 100T, 150 T, 200T, 250T
(Total machines 12)

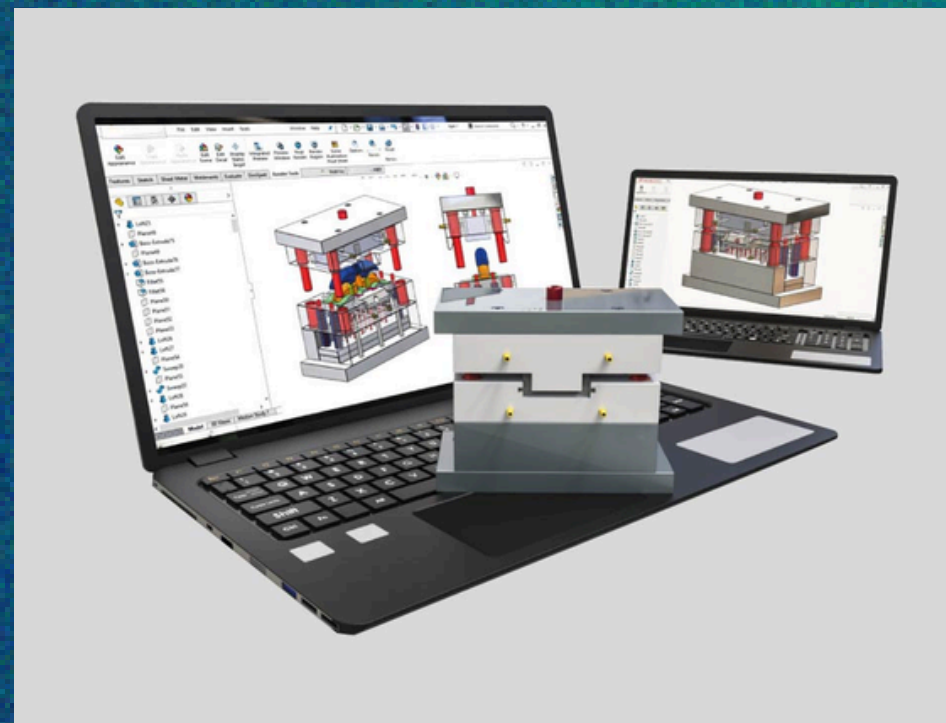

- IATF 16949 V2016 certification.
- Started with other 4 new automotive customers (2 German, 1 American, 1 French)
- Partnership signed with a major bicycle manufacturer for CE-certified reflective devices
- Initiated the certification of ISO 6742
- Initiated the certification of ISO 14001
- Initiated the certification of ISO 45001
- Initiated the certification Carbon footprint 14067
- Purchasing new injection molding machines: 50T, 100T, 120 T
- Purchasing 2 US welding machines
- 1 tampoprinting machine

- Started with 3 new automotive customers (south-korean, German and french customers)
- Started with 2 electronics customer (French and Tunisian customers)
- Started with 1 high- tech customer (German customer)
- Started with the assembly process
- Assembly and soldering processes for cables and electronic boards

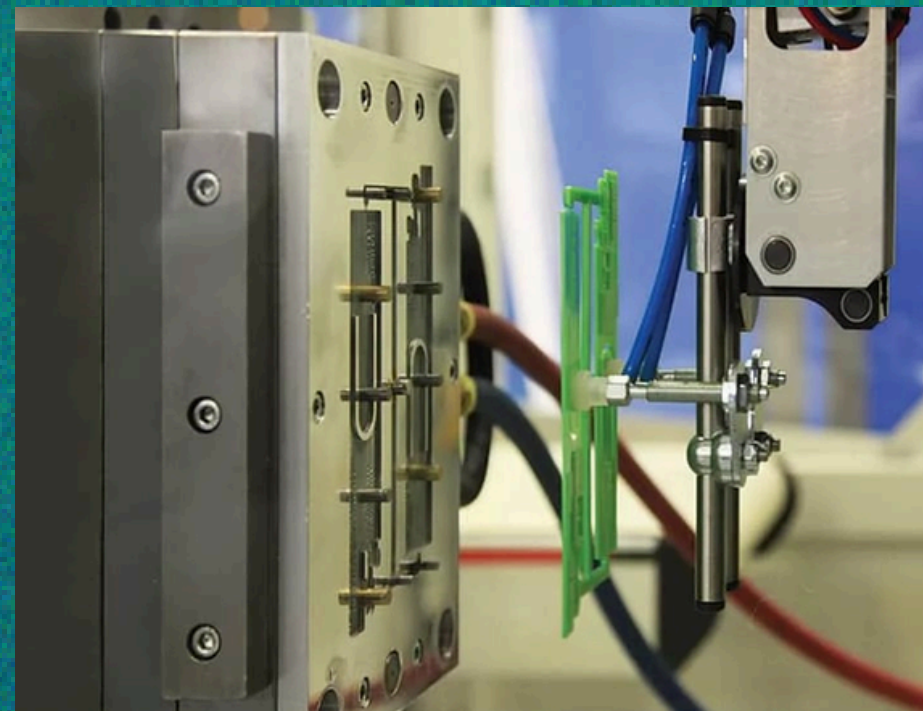

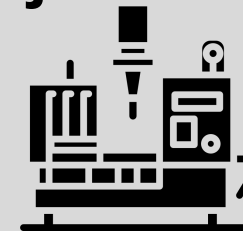

About US ?

Our team founders has 20 years of experience

**Development, Design, and Mold
Manufacturing**

**Manufacturing technical
parts through plastic injection
molding**

**Assembling process
& Wiring process development**

Our Activities

Injection molding :1K

Injection molding :2K

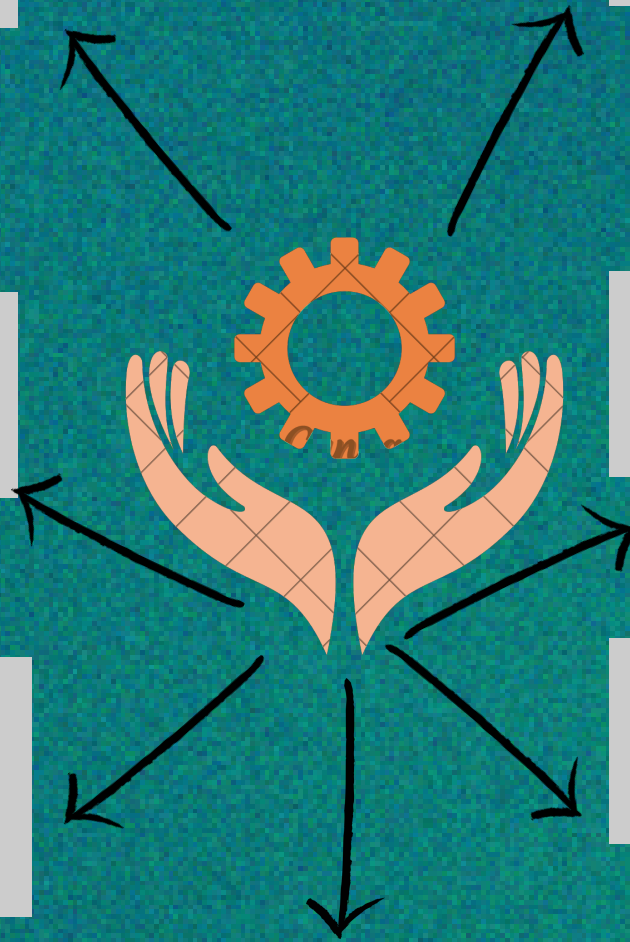

US Welding

Heat Welding

**Assembling (cable, board card,
plastic/plastic)**

Tampoprinting

Overmolding
