## □ About the Company

Zagora Machining & Design Ltd. is a modern CNC machining company located in Nikolaevo, Stara Zagora region, Bulgaria. We specialize in CNC turning and milling of precision metal components, designed and programmed with Autodesk Inventor, SolidWorks, and ESPRITCAM. We serve customers in mechanical engineering, automotive, aerospace, shipbuilding, and food industry. Our production facility covers 1,000 m<sup>2</sup> within a 7,000 m<sup>2</sup> site and is equipped with four Haas CNC machines – two turning centers and two vertical machining centers – enabling us to handle both serial and custom parts with high accuracy and repeatability.

## ⚙ Main Capabilities

- CNC Turning up to Ø300 mm × 500 mm length
- CNC Milling up to 1000 × 500 × 500 mm
- Tolerances up to ±0.01 mm
- Batch sizes from 10 to 10,000 pcs
- CAD/CAM Programming with Autodesk Inventor, SolidWorks, and ESPRITCAM

## □ Machine Park

- Haas ST-20Y – CNC Turning Center (2020)
- Haas ST-25Y – CNC Turning Center (2022)
- Haas VF-2 – Vertical Machining Center (2020)
- Haas VF-2SS – High-Speed Vertical Machining Center (2021)

## □ Materials

Steel, Stainless Steel, Aluminum, Brass, Copper, Plastics, Titanium Alloys.

## □ Quality Assurance

Internal QA system based on ISO 9001:2015 principles. Each batch is inspected according to internal control plans. Measurement reports available upon request.

## □ Our Values

Reliability – Precision – Partnership – Trust

Made in Bulgaria – European CNC Partner
